**What's new in Elden Ring:**

**Destiny 2**

**AURORA CORRIGAN'S FATE IN DESTINY 2** is the successor to Destiny's The Taken King trailer and the rest of the third expansion, Curse of Osiris. The trailer revealed that Guardians will have to face evils yet unseen, and that the true "road not taken" echoes through their past. • **An Exciting Journey with Legendary Rewards** Destiny's mythology returns with a wider, more emotional journey that lifts the veil of the Fallen world, opening new possibilities for gameplay, and even per-character storylines for Bungie's first-person role-playing shooter. • **Delve into New Mythology** Every Guardian will have to confront the threats of the Fallen across a number of exotic destinations, each bringing a new mystery, clues about the future of the Reef and the Pantheon in the Tower, and a new Promethean Guardian to guide you on your journey. All the while, you'll be rewarded with new armaments, consumables, and exotic quests based on your Guardian history in the first Destiny DLC. And, if you are fortunate enough to find that all-important Promethean Token, you'll be able to instantly raise a new Guardian. • **Tutorials, Missions, and Crucible Features** The first DLC brings more of what you love in Destiny. The tutorial challenges new Guardians to learn the game as you discover combat, movement, Super ability selection, and more. Interspersed with new missions and Crucible maps, including an Underground map based on the Fallen faction's skill tree. • **Multiple Cloaked Weapons** As in all Tali'Daar Series skins, options range from simple to fully customizable Cloaked weapon appearances. There are more than a dozen distinct weapon options, depending on your current equipment. • **New Gadgets** Crucible Talent, Rapid Round, and Warstock items add to the fun and provide additional tactical options. These items return from the original Tali'Daar Series, making it easier than ever for Guardians to customize their character appearances.

Thank goodness for this abundance of films being produced, so whether you're looking for classic, indie, documentary, comedy, horror, drama, sci-fi, animation, fantasy, documentary, or something else entirely, 2012 has more movies available than you can shake a stick at! Our expert critics independently analyze all the nominees and choose our top 10, in no particular order, for the holidays. Check them out below and try to learn something. 10. The Artist Jonathan Freeman: (Directed by) French director Michel Hazanavicius' film about a silent film star and his former sound-singing partner was one of the most eye-opening films of the year. Normally I wouldn't mention a film's artistry or technique as important in my reviews, because I'm always impressed by movies that hold my interest no matter how much they look, sound, or feel like they were made by making my eyeballs bleed. But I had to make an exception for this one. The Artist was made with just one camera; it's all in the frame. When we see it, we see the performers in their natural, unmasked state. It's a revelatory experience. Lucrecia Martel: (written by) One of the best films of the year and a heartfelt story that captures the desire of a master artist to see his masterpiece completed. This is the story of silent film actor, Francis, his shy sound-singing collaborator Rosalie, and his lover, Maggie, who wants to realize the dream of the late silent star, but
